

# LIFE VISIONING

This course is a walk through the powerful tool of Visioning, which is different from visualizing. It includes the history of how visioning began in our movement with the inspiration of Dr. Michael Beckwith, offers weekly opportunities for visioning at different levels from the individual to the community to the global and explains the role of visioning in our Global community. We will vision for our life's purpose, life's work, health and well-being, prosperity and finances, relationships, our spiritual community, the planet, and more. In these classes we study core spiritual concepts and practice applying them to the conditions in our lives. We learn how to gain more clarity and less confusion about what to do and how to do it. New Foundations is the entry level class in the study of the Science of Mind. The classes are experiential, with guided meditations and exercises to assist you in incorporating spiritual practice into your daily life. This course is the pre-requisite to any further course enrollment.

**Facilitator:** Carol Johnson Williams, RScP
